DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 44-59 and 122-139 are drawn to a method for bidding, classified in class 705, subclass 26.
 - II. Claims, drawn to a computer readable medium for controlling a computer system for placing a bid, classified in class 705, subclass 26.
 - III. **Claims 29-43 and 60-70 previously withdrawn should be cancelled.
2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II can have separate utility such as a computer controlled bidding software. See MPEP § 806.05(d).
3. (If group 1 is elected) Claims 44-59 and 122-139 generic to a plurality of disclosed patentably distinct species comprising methods for bidding. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

the prior art, the evidence or admission may be used in a rejection under 35

U.S.C. 103(a) of the other invention.

4. A telephone call was made to Maurice Purio on 8-08-03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
